Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2172:

1. This office action is in response to the application filed on August 22, 2001, in which claims 1-11 are pending for examination.

Election/Restriction

2. The following inventions is required under 35 U.S.C. 121:

Group I. Claims 1- 8, drawn to access candidates database, classified in class 707, subclass 1.

Group II. Claims 7-11, drawn to solicit applications from candidates for admission to a educational institution. classified in class ~~705~~ ⁷⁰⁵ *gpc*.

(a) Inventions I and II are related as combination disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations. (M.P.E.P. § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2172

(b) Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II. Restriction for examination purposes as indicated is proper.

C. These inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification. Restriction for examination purposes as indicated is proper.

(D) Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and the search required for Group II is not required for Group I. Restriction for examination purposes as indicated is proper. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as sub-combination disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as accessing candidates database and invention II is useable for soliciting applications from candidates for admission to a educational institution. See M.P.E.P. § 806.05(d).

(E) A telephone call was made to Lawton Rogers, III (Reg. No. 24,302) on March 19, 2004 to request an oral election to the above restriction requirement, but there was no communication and did not result in an election being made.

Art Unit: 2172

(F) Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant also is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
